Courtlandt Butts,
Matthew Kay,
Dennis Shirley,
Tanj Reed Marshall
You invest in your colleagues and your learning because every student you serve deserves the best education possible. On behalf of the Learning Forward Board of Trustees and staff, we invite you to come to St. Louis, Missouri, in December for the best learning investment you can make. As Learning Forward celebrates its 50th anniversary, we count our learning community of members like you as our crowning achievement.

At our 2019 Annual Conference, we’ll bring inspiration, innovation, and expertise to embolden your team to achieve its most ambitious goals. You and your peers, of course, are the most important ingredient. We count on your unique perspective and curiosity to increase the learning potential for everyone. Year after year, our surveys tell us how making connections with other learning professionals is central to the quality of this learning experience.

Page through this program to see all the practitioners, keynoters, and thought leaders coming to St. Louis to engage in deep learning and provocative conversations. When we share exemplars, research-based practices, and practical insights, we aim to stretch your thinking and feed your passion for continuous improvement. Collectively, our community creates the solutions to schools’ most enduring challenges.

The St. Louis Host Committee has designed this conference with you in mind. Whether you lead learning from beyond the district, within a school, or school, at the central office, or from a provincial or state leadership position, we know our commitment to serving each and every student drives you to be your best. Let us help you.

We look forward to seeing you in St. Louis.

Leigh Wall
Learning Forward President

Denise Borders
Learning Forward Executive Director
A NOTE FROM THE HOST COMMITTEE CHAIR

WELCOME TO ST. LOUIS...

…the proud home of the Gateway Arch and the premier learning experience of 2019 — Learning Forward’s Annual Conference. It is an honor to welcome lead learners from all over the world to our wonderful city to celebrate 50 years of professional learning.

For the past two years, the host committee has worked tirelessly to create a learning experience for you that is second to none. We are confident that each day of the conference will leave you seeking answers to more questions than you did the day before. Embrace this moment, and challenge yourself to think beyond what is to what can be.

The theme for this year’s conference is Gateway to Success: Our Learning. Their Future. As educational leaders, our personal commitment to lifelong learning and professional growth has a profound impact on the communities we serve and, most importantly, the students we teach. Learning Forward has once again assembled an outstanding program with thought-provoking keynote speakers, interactive sessions, and many opportunities to network and collaborate with others. We trust that your learning experience over the next few days will leave you inspired and motivated to lead change today in an effort to positively impact students’ tomorrow.

While in St. Louis, take every opportunity to experience all this beautiful city has to offer. A trip to the Gateway Arch — be sure to ride the tram to the top — and the remodeled Arch Museum is an absolute must. Enjoy dinner and sightseeing in one of many neighborhoods around the city. Visit the stars on the St. Louis Walk of Fame in The Loop, sample the restaurants and music on Washington Avenue or Ballpark Village and savor the Italian cuisine from The Hill. For those looking for something quieter, take a stroll around Forest Park or the St. Louis Zoo, admire the beautiful exhibits at the St. Louis Art Museum, or learn more about St. Louis at the Missouri History Museum.

Again, welcome to St. Louis and to the 2019 Learning Forward Annual Conference. We trust that this will be an unforgettable experience. It’s time to get your “learn” on!

Jason Adams, Chair
St. Louis Host Committee

ABOUT LEARNING FORWARD

As a membership association focused on effective professional learning, Learning Forward knows that strengthening the professional capacity of each and every educator is the pathway to ensuring successful outcomes for all children.

Every educator will grow so that all students learn when districts:

- Build systems of professional learning that prioritize equity,
- Align support with the Standards for Professional Learning,
- Create contexts where educators learn in collaboration with colleagues, and
- Focus continuous improvement on student learning needs.

ABOUT THE CONFERENCE

When it comes to advancing educator professional learning, this is THE conference. Join thousands of practitioners and thought leaders to:

- Develop solutions to professional development challenges for all educators;
- Strengthen professional learning systems at all levels;
- Explore best practices to create and sustain equity and excellence in teaching and learning every day; and
- Be part of a global community of learners.

WHO SHOULD ATTEND:

- Central office administrators
- Superintendents
- Policymakers and decision-makers
- Coaches and teacher leaders
- School-based learning teams
- Principals and assistant principals
- Higher education faculty and staff
- State and regional agency personnel
- Technical assistance providers
- Graduate students

WHY YOU SHOULD ATTEND:

- Leading practitioners sharing valuable resources to meet your professional learning needs
- Thought-provoking keynotes and distinguished lectures
- Preconference sessions that provide extended time for learning
- Shared meals are included to foster camaraderie and networking
- Reserved space in ticketed sessions
- Roundtable sessions featuring successful implementation
- Networking and meetup opportunities to connect with role-alike colleagues

General Sessions
General sessions each day include plated lunches, keynote speakers, special guests, and student performances.

Keynote Speakers
Our general session keynote speakers will motivate, inform, and engage you. Monday’s keynote features Sonja Santelises, superintendent of Baltimore City Schools, on leading for excellence. Tuesday’s EdTalk by Michael Petrilli will speak to designing education systems for equity and excellence. Taylor Mali closes the conference on Wednesday reminding us of “everything worth fighting for” and why you chose to walk this noble path in the first place.

Meals and Receptions
Individuals who register for a preconference program will receive a coffee break and lunch on preconference days. Individuals who register for the conference may attend the Welcome Reception and 50th anniversary party on Sunday evening and the reception with sponsors on Monday evening. Lunch is served on Monday and Tuesday. Brunch is served on Wednesday before the general sessions. Conference meals meet a variety of dietary needs and preferences. Those with special needs must indicate their dietary requirements on their registration forms. Special requests cannot be accommodated on site.

Thought Leader Lectures/Q&As
Thought Leader (TL) lectures and panel discussions feature selected leaders in professional learning, school improvement, and other areas of interest.

Keynote Q&A
Register for sessions QA01, QA02, and QA03 for in-depth conversations with the keynote speakers.

The Little Bit Foundation is a nonprofit organization in St. Louis whose mission is to remove obstacles to education — the greatest opportunity students have to end the cycle of poverty. That means providing for students’ basic needs, such as shoes, coats, uniforms, underwear and socks, books and school supplies. The foundation also ensures students have a nutritious meal at the end of the school day, receive instruction in personal and dental hygiene, and have access to medical screenings and mental health intervention. The foundation helps students see and present themselves in a positive light, ensuring they are comfortable and content in the classroom and uplifting them with words of encouragement and the knowledge that someone cares and believes in them.

As this year’s philanthropic effort, the 2019 Learning Forward Annual Conference Host Committee is raising funds to support the work of the Little Bit Foundation. Please stop by the St. Louis Hospitality Table to make a donation.

of the What Matters Now Network. The network is a collaboration of state-based coalitions that include educators at the school, district, and state levels engaging in cycles of continuous learning with coaching and support. The network’s theory of action is that when strong professional learning systems support educators in implementing high-quality curriculum and instructional materials, more students have access to effective teaching and learning — and better student outcomes are the result. Charles and Lynn Schusterman Family Foundation

The Charles and Lynn Schusterman Family Foundation is a global organization that seeks to improve lives, strengthen communities, and reduce inequality. The Schusterman Foundation’s philanthropic vision is grounded in a commitment to promote justice, repair the world, and treat all people with dignity and civility. The foundation invests in efforts to improve public education in the United States, between the Jewish people and Israel, and address the needs of marginalized individuals and communities. The Schusterman Foundation supports Learning Forward in its efforts to build the skills of educators to measure impact of professional learning and share their stories as they advocate for continued high-quality professional learning programs and funding. For more information, visit www.schusterman.org.

Robin Hood Learning + Technology Fund

The Robin Hood Learning + Technology Fund is a joint effort among Robin Hood, Overdeck Family Foundation, and Siegel Family Endowment to unlock the potential of technology to transform learning and advance achievement for low-income students in New York City. In collaboration with visionary school leaders, educators, and organizations, our goal is to collectively learn what is needed to bring to life two potentially powerful learning strategies: blended literacy and integrated computational thinking. For more information, visit www.robinhood.org/programs/our-areas.Diagnostics/learning-and-technology.

Wallace Foundation

Based in New York City, The Wallace Foundation is a national philanthropy that seeks to improve learning and achievement for disadvantaged children and foster the vitality of the arts for everyone. The foundation has an unusual approach: funding projects to test innovative ideas for solving important social problems, conducting research to find out what works and what doesn’t, and then communicating the results to help others. The Wallace Foundation supports Learning Forward to enhance understanding of school and system leadership through the dissemination of information and development of resources for practitioners. For more information, visit www.wallacefoundation.org.

William and Flora Hewlett Foundation

The William and Flora Hewlett Foundation is a nonpartisan, charitable foundation that advances ideas and supports institutions to promote a better world. Their programs focus on education, environment, global development and population, performing arts, and effective philanthropy. The Education Program supports institutions to promote a better world. Their programs focus on education, environment, global development and population, performing arts, and effective philanthropy. The Education Program makes grants to help educators and communities turn schools into places that empower and equip every student for a lifetime of learning. The Hewlett Foundation supports Learning Forward as it strives to develop effective professional learning strategies and policies to promote deeper learning for all students. For more information, visit www.hewlett.org.
All districts want to improve schools and make a difference for students.

A major report from the RAND Corporation points to a way forward—through attention to school leadership by principals.

Schools in six large districts that built principal pipelines outperformed similar schools in other school districts in the same states by 6.22 percentile points in reading and 2.87 percentile points in math.

The districts also saw better retention of new principals compared with the similar schools.

*Principal Pipelines: A Feasible, Affordable, and Effective Way to Improve Schools* concludes these gains were statistically significant, notable, and widespread.

“We found no other comprehensive districtwide initiatives with demonstrated positive effects of this magnitude on achievement,” the authors write.

What is a pipeline? Taking a systematic approach to:
- Rigorous leader standards
- High-quality pre-service preparation
- Data-informed hiring and placement
- Well-aligned, on-the-job support and evaluation

Leadership for Learning: Excellence in Education for Every Child at Every Level

SONJA SANTELISES

Sonja Brookins Santelises is CEO of Baltimore City Schools in Maryland. Santelises has spent 30 years focused on building high-quality teaching and learning to help students excel.

Santelises previously served as vice president for K-12 policy at The Education Trust, assistant superintendent for a network of 23 pilot schools in Boston with a track record of successfully meeting students’ needs and improving the achievement of low-income students, and executive director of the New York City Algebra Project, the local site of the national math reform program.

She also lectured on urban education at Harvard University and coached superintendents and trained school leaders in five major urban districts.

Throughout her career as an educator, academic, and administrator, Santelises has been steadfast in her belief that excellence in urban education is achievable at scale.

“Our students have the same capacity for success as any other students,” she says. “We must communicate and demonstrate our complete confidence in that capacity by charting a pathway to success for each individual child. The real challenge is ours — as educators — to hold ourselves and our students accountable for their achievement.”

Equity and Excellence in Education Systems: A Purposeful Design

MICHAEL PETRILLI

Michael Petrilli is president of the Thomas B. Fordham Institute, research fellow at Stanford University’s Hoover Institution, executive editor of Education Next, and a distinguished senior fellow for Education Commission of the States.

Petrilli helped to create the U.S. Department of Education’s Office of Innovation and Improvement, the Policy Innovators in Education Network, and Young Education Professionals. He is an international advisor to Learning Forward and serves on the advisory boards of the Association of American Educators, MDRC, and Texas Aspires.
**Equity and Excellence in Education Systems: A Purposeful Design**

**HOWARD FULLER**

Howard Fuller is a distinguished professor of education and founder/director of the Institute for the Transformation of Learning at Marquette University in Milwaukee, Wisconsin. The institute’s mission is to support exemplary education options that transform learning for children while empowering families, particularly low-income families, to choose the best options for their children.

Previously, Fuller was superintendent of Milwaukee Public Schools, where he became nationally known for his unyielding support for fundamental educational reform. Other past roles include dean of general education at the Milwaukee Area Technical College and associate director of the Educational Opportunity Program at Marquette University. He was also a senior fellow with the Annenberg Institute for School Reform at Brown University. He is chair of the board of Milwaukee Collegiate Academy. He also serves on the boards of the Black Alliance for Educational Options, Milwaukee Teach for America, Milwaukee Charter School Advocates, and Education Cities. He is an advisory board member of the National Alliance for Public Charter Schools and the National Association of Charter School Authorizers.

**The Flawed But Sacrosanct Odyssey of Teaching**

**TAYLOR MALI**

Taylor Mali is one of the most well-known poets to have emerged from the poetry slam movement as well as one of the original poets to appear on the HBO series “Def Poetry Jam.” The poem “What Teachers Make” has been viewed over 4 million times on YouTube.

Mali is a vocal advocate of teachers and the nobility of teaching, having spent nine years in the classroom. He has performed and lectured for teachers all over the world, and, in 2012, he reached his goal of creating 1,000 new teachers through “poetry, persuasion, and perseverance.” His book of essays, *What Teachers Make: In Praise of the Greatest Job in the World*, is his passionate defense of teachers drawing on his own experiences.

Mali is the author of four books of poetry and four CDs of spoken word. Mali received a New York Foundation for the Arts Grant in 2001 to develop “Teacher! Teacher!,” a one-man show about poetry, teaching, and math that won the jury prize for best solo performance at the 2001 U.S. Comedy Arts Festival.

LEARNING FORWARD FOUNDATION
Net-Walking for Learning

See complete session descriptions at conference.learningforward.org.
SP04 | PLC+: The Plus Is YOU

PLC+ is a practical and evidence-based framework focused on supporting the planning and implementation of student and teacher learning. In the same way that teachers work to identify students’ learning needs, PLCs must identify the learning needs of their adult learners to develop the most appropriate instruction for their students. In this session, attendees will learn how PLC+ can refresh current collaborative structures and help support teachers’ decision-making in the context of self- and collective efficacy, expectations, equity, and the activation of their own learning.

**Networking Meetup Sessions** | Dec. 11 | 7:30 a.m.–8:30 a.m.

**NW01 | Networking for Superintendents**
Meet other superintendents to share conference highlights and reflect on something you’ve heard or learned that changed your thinking. Discuss common themes among speakers or talk about an idea you might like to try implementing in your district.

**NW02 | Networking for Principals and Assistant Principals**
Consider the changing roles and expectations for principals and assistant principals. Explore ways in which school-based leaders, such as principals and assistants, can facilitate school improvement and improve professional learning systems. Join in a dialogue and share effective practices in this networking session.

**NW03 | Networking for District and Central Office Professional Learning Leaders**
Connect with other central office personnel to share effective strategies for supporting school improvement, ESSA implementation, coaching/supervising principals, and other district-led activities. Consider the role of central office in supporting and evaluating the impact of professional learning and instructional coaching.

**NW04 | Networking for Coaches and Teacher Leaders**
Meet with other coaches and teacher leaders and share something you’ve learned at the conference that will impact your practice. Consider teachers’ roles in schools and districts and how best to advance teaching and learning. Share next steps you will take when you return to your school or district.

**NW05 | Networking for Urban District Leaders**
Join a discussion about the major issues facing urban school districts. Focus on ways in which students learn across content areas, examine the link between professional learning and student achievement, or discuss the best ways to deploy resources. Consider how to increase public awareness and understanding that adult learning leads to student success.

**NW06 | Networking for State and Provincial Education Agencies**
Engage in a networking session with your state or provincial education agency colleagues and build on each other’s expertise. Share successful strategies for implementing quality professional learning aligned to educator evaluation systems, the college- and career-ready standards, and new assessments.

See complete session descriptions at conference.learningforward.org.

Learning Forward supports schools and districts to develop cultures of learning. And we know that the heart of a learning system is the school.

We work with school and teacher leaders to set a vision for professional learning communities that ensures school-based learning teams engage in a cycle of improvement that increases their teaching effectiveness and gets results for students.

Our work focuses on teacher collaboration that is intentional and focused on the “L” in PLCs. The five-stage team learning cycle provides teacher teams with the steps toward intentional, collaborative professional learning.

Our work provides school leaders and learning teams with a model of high-quality professional learning that is long-term, sustained, and standards-driven; grounded in a cycle of continuous improvement; and capable of inspiring all to take responsibility for the learning of every adult and student in the school.

We help learning teams:

- Gain understanding of what it means for teams to work collaboratively in a cycle of continuous improvement;
- Explore each stage of the learning team cycle;
- Learn about tools and strategies for sustaining continuous learning;
- Create a learning-focused school culture that supports teachers’ continuous learning.

Are your PLCs truly learning-focused?

Implement the cycle of learning described in Learning Forward’s bestselling book, Becoming a Learning Team.

See the five-stage cycle of continuous learning in action during this special preconference session:

PC204 Becoming a Learning Team

We want to help ensure that learning is the driving force behind your PLCs. For more information, go to consulting.learningforward.org or contact Tom Manning, associate director of consulting and networks, at tom.manning@learningforward.org.
Be sure to check out these sessions, led by your favorite Learning Forward experts, authors, consultants, and thought leaders.

Creating scalable solutions for systemwide educator and student learning priorities

REDESIGN PD COMMUNITY

The Redesign PD Community (RPDC) is an exclusive network of school district teams that uses continuous improvement processes and improvement science principles to discover practical and scalable solutions to complex professional learning challenges.

District teams are comprised of director-level administrators with systemwide responsibilities for professional learning, academics, and leadership. Learn with peer systems that share a commitment to solving professional learning challenges that have inhibited the progress we want for serving our most vulnerable students.

Issues addressed may include improving the coherence and relevance of professional learning systemwide, increasing the use of measurement and impact evidence in managing professional learning, increasing the effectiveness of teams responsible for implementing professional learning, personalization of learning, and resource reallocation.

The RPDC includes a limited number of systems to ensure personal attention and provides expert facilitation from Learning Forward for focus, guidance, and shared accountability.

Participation is structured based on a three-year cycle; membership fee is paid annually.

For more information, contact Michelle Bowman, Learning Forward associate director of communities at 972-421-0900 or michelle.bowman@learningforward.org.

Annual benefits:
- Three two-day convenings for a core team of up to three, including travel and expenses. The convenings are typically in October, December (attached to the Annual Conference), and April.
- Complimentary two-day Learning Forward Annual Conference registrations for the core team and the executive sponsor with additional special receptions and facilitated networking sessions.
- Face-to-face and virtual governance meetings for one district representative.
- Quarterly coaching calls with RPDC coach.
- Additional coaching/technical assistance calls with Learning Forward staff or partners.
- Quarterly facilitated district accountable partner check-ins.
- Quarterly webinars featuring experts tied to network challenges.
- Comprehensive Learning Forward memberships for core team members.
- Opportunity to be featured in Learning Forward communications and publications.
- Virtual engagement and access to resources through an online community.
- Special invitations to participate in funded research projects and other learning opportunities.

Join a network of leaders committed to ensuring that professional learning directly impacts student success systemwide. Limited space available.
Membership empowers your career

Where can you go to continue your professional growth? No matter if you are new to your role or going deeper after many years, our mission is to build your capacity to establish and sustain highly effective professional learning.

Membership with Learning Forward helps you:

- Increase your knowledge base.
- Develop new professional skillsets.
- Expand and diversify your professional network.
- Become an expert in envisioning, planning, implementing, and sustaining change.

Thank you for being a member and a leader of learning for the teachers and students you serve.
